

Water Professionals International (formerly known as ABC) and the Certification Commission for Environmental Professionals (C2EP) need expert perspective on water environment system operations!

Your contributions will make an IMPACT!

WPI is conducting new job analyses of water treatment and water distribution operators and needs operational experts to complete a survey. Responses to these surveys will be used to build updated operator certification exams, *Need-to-Know Criteria*, and other important operator certification resources used globally. Please complete a survey to help ensure your daily operational duties and technologies are reflected in the next generation of standardized operator certification examinations.

Get Started Today!

Begin a survey by clicking on a link below. If clicking on the link does not take you to the survey, copy the entire link's text, paste it into your web browser's address field, and press the Enter key. You may also take the survey on a mobile device by using your camera to scan the appropriate QR code below.

WPI and C2EP have partnered with PSI Services to administer these surveys. Please contact PSI at psiconsulting@psionline.com if you experience any technical difficulties.
